INDEX OF SUBJECTS

Acid mucopolysaccharide—
fatty acid deficiency..... 337
Acid phosphatase—Wilson's disease 511
Acid phosphomonoesterases—
lysosomes 18a*
Acinar tissue—gynecomastia 797
ACTH-like substance—nonpituitary tumors 11a*
Acromegaly—rib biopsy 36a*
Acute inflammation—leukocyte. 775
Acute leukemia, untreated—end stage 93
Adenocarinoma—colon 36a*
Adhesive properties—leukocytes 775
Adrenal
medulla, normal and neoplastic. 11a*
zona glomerulosa 10a*
Aldosterone secretion—zona glomerulosa 10a*
Aleutian mink disease—histochemistry, liver and kidney 33
Alkaline phosphatase—leukocytes 39a*
Allele, abnormal, no. 1 chromosome 29a*
Allergic contact dermatitis... 1031
Allergic inflammation—antigen-antibody complexes 381
Allergic (zirconium) granuloma 391
Alpha-naphthyl-isothiocyanate intoxication 677
Amphotericin B—renal tubular damage 449
Amyloid
fibrils 721
pancreatic islets in diabetes..... 38a*
ultrastructure 837
Amyloidosis
experimental, renal glomeruli.... 22a*
mouse 32a*; 855
ANIT—liver 677
Anomaly
congenital—chromosome abnormality 29a*
urethral obstruction 19a*
urinary tract 18a*
Antibacterial properties—infected tissue 697
Antibodies, insulin—rabbit and guinea pig 4a*
Antibody
antigen-antibody interaction; collagen fibrils 4a*
Arthus necrotizing vasculitis.... 3a*
ferritin-conjugated—amyloid ... 721
fluorescent—fibrin; arteriosclerotic plaque 8a*
Antigen-antibody
complexes—allergic inflammation 381
interaction—collagen fibrils 4a*
Antigen, anti-tissue—skin reaction 55
Anti-kidney serum nephritis—vascular lesions 21a*
Antimetabolites—cytochemical effects on ascites tumors 37a*
Anti-tissue serum—skin reaction 55
Aortic lipidosis—rat..... 301
Armadillo—thalidomide effect 37a*; 999
Arterial lesion—benzanthracene. 897
Arteritis, necrotizing—rabbit, experimental 131
Arteriopathy, hypertensive ... 273
Artery
acid mucopolysaccharides 337
coronary—collaterals; pig 7a*
—copper deficiency 945
hepatic, rat—ligation 34a*
pulmonary—high altitude 30a*
renal—cholesterol feeding 969
—fibromuscular hyperplasia 955
—hypertension 619
Arteriosclerotic plaque—fibrin 8a*
Arthus phenomenon 3a*
Ascites tumor—antimetabolites and steroids 37a*
Astrocytoma—electron microscopy 539
Atherosclerosis—cholesterol feeding, rabbit 349
Auer "colitis"—rabbit 913
Autolysis—electron microscopy .. 23a*
Autoradiography
abnormal human karyotypes.... 25a*
chromosomes, human, in tissue culture 24a*
Autosomal disorders 29a*
B cell, pancreas—diabetic dog.. 43a*
Bacillus anthracis—biologic activity 201

* Abstract of paper presented at the Sixtieth Annual Meeting of the American Association of Pathologists and Bacteriologists, Cincinnati, Ohio, April 26, 27 and 28, 1963.

Bacillus cereus—biologic activity 201
Bacterial dynamics—combined infection 407
Barium enema—tannic acid; lethal effects 30a*
Basement membrane
immunofluorescent studies 4a*
immunohistochemistry 929
nephron, rat 21a*
Benign "clear cell" tumor—lung 13a*
Benzanthracene—4'-fluoro-10-methyl-1,2- 897
3-4 Benzpyrene feeding—chicken and mouse..... 41a*
Beta-aminopropionitrile—mast cells 639
Beta-galactosidase—cirrhotic liver 40a*
Beta irradiation—intestine, rat.. 527
Beta-mercaptoethylamine—mast cells 639
Bile duct—ligation; rat 34a*
Biliary epithelial cells—hyperplasia 15a*
Biopsy
glomerulonephritis 459
kidney; tubular lesions..... 1067
rib, acromegaly 36a*
Blastocyst—thalidomide effect 37a*; 999
Blood—endothelial growth 9a*; 361
Blood lipid—toxemia of pregnancy 3a*
Bone lesions—chicken embryo.. 23a*
Bone marrow—mast cells 639
Brain
acid phosphomonoesterases in lysosomes 18a*
hypoxia, mountain-bred Swiss mouse 1a*
Breast
disease—erythrocyte slowing factor in serum..... 41a*
gynecomastia 797
Calcium deposition—kidney ... 449
Cancer cells
isolation by membrane filter.... 40a*
Russell bodies 437
Carbohydrate metabolism—liver; hepatitis virus effect 17a*
Carbon tetrachloride—liver 14a*; 867
Carcinoma, experimental—cervix, rodent 12a*
Cardiac necrosis—serotonin ... 8a*
Cardiomegaly, idiopathic—succinic dehydrogenase deficiency 661
Cardiovascular lesions—copper deficiency 945
Carrageenin granuloma—rat .. 38a*
Cartilage, neoplastic—transplantation 12a*
Cationic proteins—in infection. 697
Cerebral lysosomes—acid phosphomonoesterases 18a*
Cerebrovascular system—mountain-bred Swiss mouse 1a*
Cervix
mouse, methylcholanthrene 41a*
rodent; differentiation and carcinoma, experimental ... 12a*
Chicken
3-4 benzpyrene feeding..... 41a*
embryo—skeletal lesions 23a*
Cholesterol
atherosclerosis—rabbit 349
emboli 12a*
feeding—rabbit 969
Choline deficiency—fatty cirrhosis 1055
Choriocarcinoma—armadillo 37a*; 999
Choroid plexus—hypervitaminosis A 1a*; 1017
Chromatin—translocation to Y chromosome 29a*
Chromosomes
abnormal allele, no. 1 chromosome; congenital abnormalities 29a*
abnormalities, radiation-induced. 25a*
autosomal disorders 29a*
incomplete trisomy syndromes... 28a*
in disease 27a*
induced aberrations 26a*
mosiac normal-"D" trisomy boy; radiation chimera father 28a*; *addendum* 129
myleran-induced abnormalities.. 28a*
pediatric department study..... 27a*
sex development 26a*
tissue culture 24a*
Circulation, extracorporeal—dog myocardium 31a*
Cirrhosis
beta-galactosidase; cellular injury and repair..... 40a*
fatty—choline deficiency 1055
"Clear cell" tumor, benign—lung 13a*
Clumping—leukocytes 775
Colitis, Auer—rabbit 913
Collagen fibrils—antigen-antibody interaction 4a*
Colloidal (silica) granuloma.. 391
Colon—adenocarcinoma 36a*
Combined infection—*Hemophilus influenzae* and influenza virus C..... 407

Congenital anomalies—abnormal allele, no. 1 chromosome 29a*
Contact dermatitis, allergic... 1031
Copper
cytotoxic properties 2a*
deficiency-swine 945
Coronary artery
collaterals; pig 7a*
copper deficiency 945
Cristae, basement membrane—nephron, rat 21a*
Cystic fibrosis, pancreas..... 31a*
intestinal lesions 42a*
Cytochemistry
choroid plexus 1a*; 1017
rheumatoid factor 2a*
Cytoplasm—necrosis *in vitro*.... 23a*
Cytotoxin—copper 2a*
Dacron hub, intravascular—endothelial growth 9a*; 361
Dasypus novemcinctus mexicanus—thalidomide effect 37a*; 999
Deficiency
copper—swine 945
essential fatty acid 337
succinic dehydrogenase—heart... 661
Dehydrogenase, succinic—deficiency 661
Dermatitis, allergic 1031
Diabetes
amyloid in pancreatic islets..... 38a*
B cell destruction, dog 43a*
Diet
lipid—reticuloendothelial blockade 5a*
necrogenic—hepatic change...14a*; 477
siderosis of liver, experimental... 73
Diffusion chamber—pneumococcal infection *in vivo*.... 5a*
dl-homocystine 15a*
dl-serine—renal injury 21a*
Dog
B cell destruction in diabetes.... 43a*
myocardium, extracorporeal circulation 31a*
Duchenne type muscular dystrophy—necrosis, muscle fiber 107
Dysplasia, renal 18a*
Dystrophy, muscular—necrosis, muscle fiber 107
Eggs, embryonated—combined infection 407
Electrolyte-losing syndrome, familial—juxtaglomerular cells, infants..... 20a*
Electron microscopy
adrenal medulla, normal and neoplastic 11a*
allergic inflammation 381
amyloid 837
amyloid fibrils 721
aortic lipidosis, rat..... 301
astrocytoma 539
autolysis 23a*
B cell, diabetic dog..... 43a*
cervical epithelium mouse..... 41a*
chromosomes, human, in tissue culture 24a*
colonic adenocarcinoma 36a*
contact dermatitis 1031
fibrin-induced glomerular lesions 579
fowlpox inclusion 6a*
glomerular mesangium 555
heart, human 9a*
kidney, human 273
liver 477
—ANIT intoxication 677
—CCl_4 intoxication 14a*; 867
myocardium, dog 31a*
pancreas, rabbit 16a*
renal artery, rat..... 619
renal glomeruli, amyloidosis..... 22a*
renal glomerulus and tubules in hypertension 257
renal injury from dl-serine..... 21a*
renal tubules 1067
renal vein thrombosis..... 19a*
small bowel 23a*
Wilson's disease 511
zona glomerulosa 10a*
Emboli—cholesterol 12a*
Embolism, pulmonary—in emphysema 767
Embryonated eggs—combined infection 407
Emphysema, obstructive—embolism 767
End stage—acute leukemia..... 93
Endothelium—intravascular growth 9a*; 361
Endothelium, hepatic—fibrinogen 2a*
Enema, barium—tannic acid ... 30a*
Epinephrine—newborn rabbit .. 825
Epithelial cells, biliary—hyperplasia 15a*
Epithelioid cell granuloma.... 391
Epithelium
cervix, mouse 41a*
glomerulus 20a*
Erythrocyte slowing factor—breast disease 41a*
Ethionine—fatty liver 15a*
Excretory pathway, liver—ANIT 677
Exudate, peritoneal, rabbit—leukocytes 775
Familial electrolyte-losing syndrome 20a*

Fatty acid deficiency—artery wall 337
Fatty acids—thrombosis 987
Fatty cirrhosis—choline deficiency 1055
Fatty liver, ethionine-induced 15a*
Ferritin-conjugated antibody—amyloid 721
Fetal parabiotic syndrome.... 7a*
Fever—pneumococcal infection 5a*; 247
Fibril
amyloid 721
collagen—antigen-antibody interaction 4a*
Fibrin
arteriosclerotic plaque 8a*
formation—glomerular lesions... 579
Fibrinogen—Kupffer cell and endothelium 2a*
Fibromuscular hyperplasia—renal arteries 955
Filter, membrane—cancer cell isolation 40a*
Fixation—hyaline membrane disease 41a*
Fluorescence
thioflavine-T—amyloid, pancreatic islets in diabetes..... 38a*
3-4 benzpyrene feeding, chicken and mouse 41a*
Fluorescent antibody
fibrin in arteriosclerotic plaque.. 8a*
Proteus pyelonephritis, rat..... 1
4'-fluoro-10-methyl-1,2-benzanthracene 897
Fowlpox inclusion—electron microscopy 6a*
Gastrointestinal lesions 42a*
Germfree mouse—whole-body irradiation 35a*
Glomerular epithelium—acute glomerulonephritis 20a*
Glomerular lesions—fibrin-induced 579
Glomerulonephritis
acute—resolution 20a*
persistent—biopsy 459
subacute and chronic—tubule formation 37a*
Glomerulosclerosis, intercapillary—x-ray induced, mouse 22a*
Glomerulus
amyloidosis, experimental 22a*
in hypertension 257
mesangium 555
Glucose tolerance test—leukocytic alkaline phosphatase activity 39a*
Glycoprotein—papain injection, rabbit 419
Glycosidase—cirrhotic liver 40a*
Gonatropin-secreting tumor—in man and Syrian hamster 10a*
Gooch porcelain crucible—cancer cell isolation..... 40a*
Granuloma
carrageenin—rat 38a*
epithelioid cell 391
plasma cell—lung 39a*
Guinea pig—insulin antibodies... 4a*
Gynecomastia—acinar tissue ... 797
Heart
collaterals between coronary arteries, pig 7a*
cystic fibrosis of pancreas..... 31a*
hypertrophy, human 9a*
idiopathic cardiomegaly 661
infarct, pigeon 651
myocardium, dog 31a*
myofilament, rat 9a*
necrosis, tryptophan-deficient... 8a*
pressure distention and perfusion-fixation 33a*
Hemophilus influenzae—dynamics 407
"Hepartrophy," surgical 497
Hepatectomy, partial—restoration 497
Hepatic change—necrogenic diet 14a*; 477
Hepatic parenchymal cell—carbon tetrachloride 14a*; 867
Hepatitis virus—oxidative enzyme activity and carbohydrate metabolism..... 17a*
Heterologous serum, anti-tissue—skin reaction 55
High altitude—pulmonary arterial tree 30a*
Histochemistry
aortic lipidosis, rat..... 301
ascites tumors 37a*
beta-galactosidase and glycosidase, cirrhotic liver..... 40a*
carrageenin granuloma, rat..... 38a*
liver and kidney in Aleutian mink disease 33
pancreas, rabbit, experimental Kwashiorkor 16a*
Russell bodies 437
Wilson's disease 511
Histoplasma capsulatum—immunohistochemistry 713
Histoplasmosis—incidence 31a*
Hub, dacron, intravascular—endothelial growth 9a*; 361
Hyaline membrane disease—influence of fixation 41a*

Hydronephrosis, experimental
—enzymatic studies, renal tubules, rat 19a*
Hyperkinetic pulmonary hypertension 739
Hyperplasia
biliary epithelial cells 15a*
fibromuscular—renal arteries.... 955
Hypersensitivity—local reaction, rabbit lung 39a*
Hypertension
experimental 257
pulmonary, experimental 739
rat 619
renal arteries 955
renal arteriopathy 273
Hypertrophy—human heart 9a*
Hypervitaminosis A—choroid plexus 1a*; 1017
Hypoxia—effect on neurons and cerebrovascular system, mountain-bred Swiss mouse 1a*
Idiopathic cardiomegaly—succinic dehydrogenase deficiency 661
Iliac crest—osteoporosis 143
Immune reaction—thymus 213
Immunochemistry—rheumatoid factor 2a*
Immunofluorescence
ACTH-like substance, nonpituitary tumor 11a*
basement membranes, mouse.... 4a*
fibrinogen in Kupffer cells and endothelium 2a*
Immunohistochemistry
Auer "colitis" 914
basement membranes, mouse 929
Histoplasma capsulatum 713
Inclusion, fowlpox—viral replication 6a*
Infant—juxtaglomerular cells; familial electrolyte-losing syndrome 20a*
Infarct, myocardial—pigeon ... 651
Infected tissue—cationic proteins 697
Infection, pneumococcal—fever and tissue injury 5a*; 247
Inflammation
allergic—antigen-antibody complexes 381
leukocyte 775
Influenza C virus—combined infection with *Hemophilus influenzae* 407
Influenzal pneumonia, viral—mouse 6a*
In situ neuroblastoma 1089
Insulin antibodies—rabbit and guinea pig 4a*
Intestine
beta irradiation 527
cystic fibrosis of pancreas..... 42a*
polyposis—mucocutaneous pigmentation (Peutz-Jeghers syndrome) 40a*
Intoxication, ANIT 677
Intravascular dacron hub—endothelium 9a*; 361
Intravascular fibrin—glomerular lesions 579
Iron—liver 16a*
Irradiation
beta—intestine, rat 527
kidney, mouse 809
thymus, mouse 369
whole-body, germfree mouse ... 35a*
Juxtaglomerular cells—infant; familial electrolyte-losing syndrome 20a*
Karyocytomegaly—myleran-induced 28a*
Karyotype—human, abnormal... 25a*
Kidney
Aleutian mink disease 33
anti-kidney serum nephritis..... 21a*
arteries in hypertension..... 619; 955
basement membrane cristae, rat nephron 21a*
biopsy—tubular lesions 1067
cholesterol-fed rabbit 969
congenital urethral obstruction.. 19a*
dysplasia in urinary tract anomalies and pyelonephritis.. 18a*
fibrin-induced glomerular lesions 579
glomerulus
—amyloidosis, experimental 22a*
—epithelium 20a*
—fibrin-induced lesion 579
—mesangium 555
—nephritis 459
hydronephrosis, experimental, rat 19a*
hypertension 257
hypertensive arteriopathy 273
infant, juxtaglomerular cells..... 20a*
injury by dl-serine 21a*
in pneumonia 35a*
in scleroderma 34a*
intercapillary glomerulosclerosis, mouse 22a*
irradiation 809
necrotizing arteritis, rabbit 131
thrombosis, renal vein..... 19a*
tubule—damage, amphotericin B 449
—formation, subacute and chronic glomerulonephritis 37a*
Waldenström's macroglobulinemia 36a*
Kupffer cell—fibrinogen 2a*
Kwashiorkor, experimental—rabbit pancreas 16a*

L.E. phenomenon—pleural effusions and synovial fluid.. 42a*
Leukemia, lymphogenous—lymphatic and hemic beds 34a*
Leukemia, untreated, acute—end stage 93
Leukocytes
alkaline phosphatase during glucose tolerance test..... 39a*
cationic proteins 697
clumping, phagocytosis 775
Lipid
reticuloendothelial system blockade 5a*
toxemia of pregnancy, experimental 3a*
Lipidosis, aortic—rat 301
Liver
acid phosphomonoesterases 18a*
Aleutian mink disease..... 33
ANIT intoxication 677
beta-galactosidase and glycosidase 40a*
carbon tetrachloride 14a*; 867
fatty cirrhosis and choline deficiency 1055
fatty; ethionine-induced 15a*
injury, human and experimental; population kinetics 17a*
iron deposition, PAS-positive material 16a*
Kupffer cells and endothelium, fibrinogen in 2a*
necrogenic diet 14a*; 477
oxidative enzyme activity and carbohydrate metabolism; hepatitis virus 17a*
partial hepatectomy 497
portal vein, bile duct and hepatic artery, ligation of, rat.... 34a*
siderosis, experimental, dietary.. 73
Wilson's disease 511
Lung
"clear cell" tumor, benign..... 13a*
cystic fibrosis of pancreas..... 31a*
embolism 767
emphysema 767
high altitude 30a*
histoplasmosis and other mycotic lesions 31a*
hypersensitivity reactions, rabbit 39a*
hypertension, experimental 739
monocrotaline; influence of rat strain 13a*
plasma cell granuloma..... 39a*
primary complex; *H. capsulatum* 713
Lupus erythematosus—pleural effusions and synovial fluid aspirate 42a*
Lymphatic tissue—germfree mouse, irradiated; microflora 35a*
Lymphocytes
circulating—immune reaction ... 213
thymic irradiation, mouse..... 369
Lymphoid organ—immune reaction 213
Lymphoid tissue—thymus and spleen, fetal and newborn rabbits 32a*
Lymphosarcoma—lymphatic and hemic beds 34a*
Lysosomes
cerebral and hepatic—acid phosphomonoesterases 18a*
liver—Wilson's disease 511
Macroglobulinemia, Waldenström's—renal lesions .. 36a*
Mange, myobic—mouse.....32a*; 855
Mast cells—bone marrow, rat.... 639
Medulla, adrenal—normal and neoplastic 11a*
Meiosis 24a*
Melanotic tumor, experimental 175
Membrane, basement
cristae in nephron, rat..... 21a*
immunofluorescent studies, mouse and other species 4a*
Membrane filter—cancer cell isolation 40a*
Mesangium—renal glomerulus .. 555
Metabolism, carbohydrate—liver; hepatitis virus effect 17a*
Methylcholanthrene—cervical epithelium, mouse 41a*
Microangiographic technique—gastrointestinal lesions. 42a*
Microelectrophoresis—erythrocyte slowing factor, breast disease 41a*
Microflora—lymphatic tissue, irradiated germfree mouse 35a*
Mink—Aleutian mink disease.... 33
Mitosis 24a*
instability, mouse and man..... 25a*
regenerating skeletal muscle.... 33a*
Monocrotaline feeding—pulmonary tissue; influence of rat strain..... 13a*
Mosaic normal-"D" trisomy boy—radiation chimera father 28a*; *addendum*.. 129
Mosaicism—incomplete trisomy syndromes 28a*
Mouse
amyloidosis 28a*; 855
basement membranes 4a*; 929
cervix; methylcholanthrene 41a*

germfree—whole-body irradiation 35a*
kidney, irradiation 22a*; 809
mountain-bred Swiss; hypoxia . 1a*
myobic mange 32a*; 855
skin ulcer 32a*; 855
3-4 benzpyrene feeding 41a*
thymic irradiation 369
viral influenzal pneumonia..... 6a*
zygote mitosis 25a*
Mucocutaneous pigmentation—Peutz-Jeghers syndrome 40a*
Mucopolysaccharides—fatty acid deficiency 337
Mucosa, small bowel—steatorrhea 23a*
Mucous and squamous differentiation—cervix, rodent 12a*
Muscle, skeletal—regenerating. 33a*
Muscular dystrophy, Duchenne type—necrosis, muscle fiber 107
Mycotic nodules—incidence ... 31a*
Myleran—karyocytomegaly and chromosomal abnormalities 28a*
Myobic mange—mouse 32a*; 855
Myocardium
extracorporeal circulation, dog.. 31a*
infarct, pigeon 651
normal and hypertrophic, rat; myofilament diameter .. 9a*
Myofilament—rat myocardium, normal and hypertrophic. 9a*
Necrogenic diet—hepatic change 14a*; 477
Necrosis
cardiac—tryptophan deficiency.. 8a*
in vitro—nuclear and cytoplasmic changes 23a*
muscle—muscular dystrophy, Duchenne 107
Necrotizing arteritis—rabbit, experimental 131
Necrotizing vasculitis, Arthus 3a*
Neoplasm
adrenal medulla 11a*
carcinoma, experimental, rodent cervix 12a*
colonic adenocarcinoma 36a*
gonadotropin-secreting tumor, man and Syrian hamster. 10a*
melanotic tumor 175
nonpituitary tumor; ACTH-like substance; immunofluorescence 11a*
Russell bodies in cancer cells.... 437
Neoplastic cartilage—transplantation 12a*
Nephritis
anti-kidney serum—vascular lesions 21a*
glomerular—biopsy 459
Nephron—rat; basement membrane cristae 21a*
Nephrotoxic tubular damage—amphotericin B 449
Neural crest tumor, in situ.... 1089
Neuroblastoma, in situ..... 1089
Neuron—hypoxia, mountain-bred Swiss mouse 1a*
Neurogenic origin—melanotic tumor 175
Nucleus—in necrosis *in vitro*.... 23a*
Obstructive emphysema—embolism 767
Osteolathyrism—chicken embryo 23a*
Osteoporosis 143
Oxidative enzyme—hepatitis virus effect 17a*
Pancreas
B cell destruction, diabetic dog. 43a*
cystic fibrosis—cardio-pulmonary 31a*
—intestinal lesions 42a*
islets—diabetes; thioflavine-T fluorescence of amyloid.. 38a*
Kwashiorkor, experimental, rabbit 16a*
Papain injection—serum protein and glycoprotein 419
Parabiotic syndrome, fetal.... 7a*
Perfusion-fixation—human heart 33a*
Peritoneal exudate—rabbit 775
Permeability—renal artery 619
Peutz-Jeghers syndrome 40a*
Phagocytosis—leukocyte 775
Phosphomonoesterases, acid—liver and cerebral lysosomes 18a*
Pig
coronary arteries 7a*
(see swine)
Pigeon—myocardial infarct 651
Pigmentation, mucocutaneous—Peutz-Jeghers syndrome 40a*
Placenta—thalidomide effect 37a*; 999
Plasma cell—pulmonary granuloma 39a*
Pleural effusion—L.E. phenomenon 42a*
Pneumococcal infection—fever and tissue injury 5a*; 247
Pneumonia
renal alterations 35a*
viral influenzal—mouse 6a*
Polyposis, intestinal—Peutz-Jeghers syndrome 40a*

Population kinetics—liver injury, human and experimental 17a*
Portal vein ligation—rat..... 34a*
Precipitating antibody—Arthus necrotizing vasculitis 3a*
Pregnancy—toxemia, experimental 3a*
Pressure distention—human heart 33a*
Primary complex, lung—*H. capsulatum* 713
Protein, low—steatorrhea, small bowl mucosa 23a*
Protein, serum
immune reaction 213
papain injection, rabbit 419
thymic irradiation, mouse..... 369
Proteins, cationic 697
Proteus—pyelonephritis, rat 1
Pulmonary arterial tree—high altitude 30a*
Pulmonary embolism—in emphysema 767
Pulmonary hypertension, experimental 739
Pulmonary primary complex—*H. capsulatum* 713
Pulmonary tissue—monocrotaline feeding 13a*
Pyelonephritis
chronic—renal dysplasia 18a*
retrograde—rat 1
Rabbit
atherosclerosis 349
Auer "colitis" 913
cholesterol feeding 969
insulin antibodies 4a*
lung; hypersensitivity reaction.. 39a*
lymphoid tissue in thymus and spleen 32a*
necrotizing arteritis 131
newborn—epinephrine effect 825
papain injection 419
peritoneal exudate 775
skin transplantation 227
Radiation
chimera .....28a*; *addendum* 129
therapeutic—chromosomal abnormalities 25a*
Rat
aortic lipidosis 301
carrageenin granuloma 38a*
fatty cirrhosis 1055
hydronephrosis, experimental ... 19a*
hypertension 619
intestine; beta irradiation and yttrium-90 ingestion 527
liver; necrogenic yeast diet...14a*; 477
mast cells 639
myocardium, normal and hypertrophic 9a*
nephron 21a*
portal vein, bile duct, hepatic artery branches; ligation.. 34a*
Proteus pyelonephritis, experimental 1
pulmonary arterial lesion 897
strain, influence of—pulmonary tissue; monocrotaline ... 13a*
Renal alterations—necrotizing arteritis, rabbit 131
Renal artery
cholesterol feeding 969
fibromuscular hyperplasia 955
hypertension 619
Renal biopsy—tubular lesions... 1067
Renal development—congenital urethral obstruction 19a*
Renal dysplasia—urinary tract anomalies and chronic pyelonephritis 18a*
Renal glomerulus—mesangium .. 555
Renal injury—dl-serine 21a*
Renal vein thrombosis..... 19a*
Renal tubular damage—amphotericin B 449
Renal tubules
hypertension 257
ureteric obstruction, experimental, rat 19a*
Restoration—post-partial hepatectomy 497
Reticular response—in sarcoidosis 32a*
Reticuloendothelial system—blockade by lipid diet.... 5a*
Retrograde pyelonephritis—rat 1
Rheumatoid factor 2a*
Rib—acromegaly 36a*
Rodent—cervix 12a*
Russell bodies—in cancer cells... 437
Sarcoidosis 32a*
Scleroderma—kidney in 34a*
Serotonin—cardiac necrosis, protection against 8a*
Serum
anti-tissue—skin reaction 55
nephritis, anti-kidney—vascular lesions 21a*
protein
—immune reaction 213
—papain injection, rabbit..... 419
—thymic irradiation, mouse..... 369
Sex development—chromosomal errors 26a*
Siderosis—liver, experimental dietary 73
Silica granuloma 391
Skeletal lesions—osteolathyrism. 23a*
Skeletal muscle, regenerating.. 33a*
Skin
allergic dermatitis 1031

anti-tissue serum, reaction with.. 55
myobic mange, mouse.....32a*; 855
transplantation, rabbit 227
Small bowel mucosa—steatorrhea 23a*
Spectrofluorometry—acid phosphomonoesterases in liver and cerebral lysosomes.. 18a*
Spleen—fetal and newborn rabbits 32a*
Splenectomy—immune reaction .. 213
Squamous differentiation—cervix, rodent 12a*
Steatorrhea—small bowel mucosa 23a*
Steroids—ascites tumors 37a*
Succinic dehydrogenase deficiency—myocardium .. 661
Surgical "hepartrophy" 497
Swine—copper deficiency 945
Syncytiotrophoblast, human—histogenesis and function 10a*; 153
Synovial fluid aspirate—L.E. phenomenon 42a*
Tannic acid—barium enema..... 30a*
Thalidomide—placental alterations 37a*; 999
Thioflavine-T fluorescence—amyloid 38a*
Thrombosis
free fatty acids..... 987
in pulmonary emphysema..... 767
renal vein 19a*
Thymectomy—immune reaction.. 213
Thymus
adult—immune reaction 213
fetal and newborn rabbits..... 32a*
irradiation, mouse 369
Tissue
culture—human chromosomes .. 24a*
—prolonged; human euploid cells 24a*
injury—pneumococcal infection 5a*; 247
lipid—toxemia of pregnancy..... 3a*
Toxemia of pregnancy, experimental 3a*
Transplantation
neoplastic cartilage 12a*
skin, rabbit 227
Trisomy, partial 28a*
Trisomy syndromes, incomplete 28a*
Trophoblast, human 10a*; 153
Tryptophan deficiency—cardiac necrosis 8a*
Tubules, renal
damage—amphotericin B 449
lesions 1067
subacute and chronic glomerulonephritis 37a*
Tumor
ACTH-like substance 11a*
"clear cell," benign, lung..... 13a*
gonadotropin-secreting 10a*
melanotic, experimental 175
Ulceration—myobic mange...32a*; 855
Ultrastructure—see Electron microscopy
Ureter—obstruction 19a*
Urethral obstruction 19a*
Urinary tract—renal dysplasia.. 18a*
Vascular lesion
anti-kidney serum nephritis..... 21a*
pulmonary hypertension 739
sarcoidosis 32a*
Vasculitis, necrotizing, Arthus type 3a*
Vein, renal—thrombosis 19a*
Vertebrae—osteoporosis 143
Viral replication, fowlpox..... 6a*
Virus, hepatitis (MHV-S).... 17a*
Vitamin A excess—choroid plexus 12a*; 1017
Waldenström's macroglobulinemia—renal lesions..... 36a*
Wilson's disease—acid phosphatase 511
X-irradiation—kidney, mouse.22a*; 809
X-ray—intercapillary glomerulosclerosis, mouse 22a*
Yeast, necrogenic—liver, rat.14a*; 477
Yttrium-90 ingestion 527
Zirconium granuloma 391
Zona glomerulosa—aldosterone secretion 10a*
Zygotes—mitosis, mouse and man. 25a*

INDEX OF AUTHORS

Adriano, S. See Yamaguchi, Adriano and Braunstein (October) 713

Allison, F., Jr.; Lancaster, M. G., and Crosthwaite, J. L. Studies on the pathogenesis of acute inflammation. V. An assessment of factors that influence *in vitro* the phagocytic and adhesive properties of leukocytes obtained from rabbit peritoneal exudate. (November) 775

Amarose, A. P. See Warren, Meisner and Amarose (July) 25a*

American Association of Pathologists and Bacteriologists. Proceedings. (July) 123

Anderson, M. S. Electron microscopy of the glomerulus and renal tubules in experimental hypertension. (August) 257

——; **McAllister, W. H., and Bloomberg, G.** Lethal effects of tannic acid in the barium enema: report of three fatalities and experimental studies. (July) . . 30a*

Andrews, E. C., Jr. See Bolles and Andrews (July) 5a*; (August) 247

Angers, J. See Rottino, Angers and Conte (July) 41a*

Angevine, D. M. See Takeoka, Angevine and Lalich (October) 639

Arey, J. B. See Thomaides and Arey (July) 42a*

Argani, I. See Kipkie and Argani (July) 36a*

Arias-Stella, J., and Saldaña, M. The terminal portion of the pulmonary arterial tree in people native to high altitudes. (July) 30a*

Arquilla, E. R., and Finn, J. J. Individual variations of insulin antibodies produced by rabbits and guinea pigs. (July) 4a*

Ashworth, C. T. See Flume, Ashworth and James (December) 1067

——. See McGee and Ashworth (August) 273

Azar, H. A.; Naujoks, G., and Williams, J. Role of the adult thymus in immune reactions. I. Observations on lymphoid organs, circulating lymphocytes and serum protein fractions of thymectomized or splenectomized adult mice. (August) 213

——. See Ghossein, Azar and Williams (September) 369

Bader, S.; Goodman, R. M.; Spiro, D., and Taylor, H. C., Jr. Fine structural and autoradiographic studies of tissue cultured human chromosomes. (July) 24a*

Baglio, C. M. See Steiner, Phillips and Baglio (October) 677

Bailey, J. D. See Sutherland, Hartroft, Bailey and Balis (July) 20a*

Baird, B.; Baird, C. D. C., and Brown, W. J. Neuronal and cerebrovascular pathology in brains of continuously hypoxic mountain-bred Swiss mice. (July) . 1a*

Baird, C. D. C. See Baird, Baird and Brown (July) 1a*

Baker, R. D.; Rosal, J., and Roy, M. Nodules of histoplasmosis and other mycoses in routine necropsies. (July) 31a*

Balis, J. U. See Sutherland, Hartroft, Bailey and Balis (July) 20a*

Bangle, R., Jr. A morphologic and histochemical study of cytoplasmic Russell bodies in cancer cells. (September) 437

Barr, M. L. Chromosomal errors in relation to sex development. (July) 26a*

Bauer, H. See Horowitz, Bauer, Paronetto, Watkins and Popper (July) 35a*

Beaver, D. L.; Cheatham, W. J., and Moses, H. L. The relationship of the fowlpox inclusion to viral replication. An electron microscopic study. (July) . . 6a*

Becker, F. F. Restoration of liver mass following partial hepatectomy: "surgical hepartrophy." I. Influence of blood flow. (September) 497

Becker, N. H., and Sutton, C. H. The cytochemical pathology of the choroid plexus. I. The effect of hypervitaminosis A. (July) 1a*

——, and ——. Pathologic features of the choroid plexus. 1. Cytochemical effects of hypervitaminosis A. (December) 1017

Beckwith, J. B., and Perrin, E. V. In situ neuroblastomas: a contribution to the natural history of neural crest tumors. (December) 1089

* Abstract of paper presented at the Sixtieth Annual Meeting of the American Association of Pathologists and Bacteriologists, Cincinnati, Ohio, April 26, 27 and 28, 1963.

Bender, M. A. Induced aberrations in human chromosomes. (July) 26a*
Benditt, E. P. See Strunk, Hammond and Benditt. (July) 20a*
Benirschke, K. See Marin-Padilla and Benirschke (July) 37a*; (December) . . 999
